

July 14, 1997

Roddy,

I hope this didn't turn out to be more of a job than you thought it would be. We are thrilled with the results and are looking forward to having you back to do some planting for us. Part of the agreement was to re-establish a path to the house but we really can't see your wasting your time to do that and I know you had to have more dirt delivered than you planned on. I hope the two will balance out. You also said we could pick out a tree of our choice from Bill, so we'll work on that.

I hope you will let everyone know what a nice job they did. All of the young men you have working for you are truly gentlemen and hard workers. We really appreciate that there are still youth that are not afraid of honest work. I hope they will stick with you for a long time because they send a positive image.

Chuck will let you know when we are ready to start planting. Hopefully Bill can get here soon to see what we have in mind and you three can work something out.

Keep in touch,

Thanks again to all,

*Beth Andersen*
